Clayton Table in white oak

Our Woods

We work only with solid, natural American hardwoods sustainably harvested from our farm in Illinois. We do not work with veneers, imports, engineered, or treated materials.

Ash

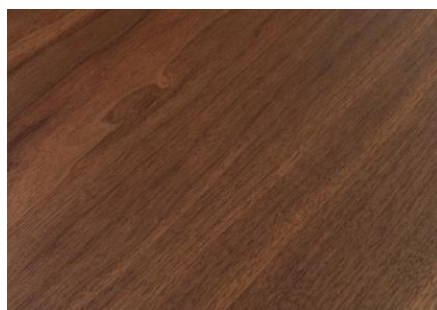

Cherry

Maple

Sycamore

Walnut

White Oak

Our Finish

Our finish is a proprietary two-step hand-rubbed oil finish. It is a clear, exceedingly durable semi-matte, commercial-grade finish that protects the surface from wear and tear while showcasing the natural beauty of the wood.

We offer blackening, bleaching, and satin lacquer finishes on request. We do not offer stains or color-matching services.

How to Buy

Everything we do is custom, handcrafted just for you. Tell us:

- The style of table
- The dimensions: length x width x height
- The wood species
